OBJECTIVE

Secure a full-time development position for the summer of 2014.

EDUCATION

Bachelor of Arts, Mathematics & Computer Science   Expected May 2015
Lewis & Clark College, Portland, Oregon
Concentration: Parallel Computing, Web Development

COMPUTER SKILLS

Languages: Java, C, Haskell, JavaScript, LaTeX, RiverTrail, HTML, Python, PHP.

Operating Systems: Linux, Windows, OSX.

EXPERIENCE

Web Developer   Fall 2011 - Current
Lewis & Clark College, Public Affairs & Communication: New Media.
- Content Migration and Content Management Systems.
- Test and develop a search engine for the school's website.

Math Instructor   January 2013 - Current
Mathnasium LLC, Portland, OR. Mathnasium is a place where students of all levels come to learn about math. My job is to teach the Mathnasium curriculum to these students. I occasionally assist them with learning topics they are covering in school.
- Teaching (K-12)
- Communication

Research Assistant   Summer 2013
Worked with professor Jens Mache at Lewis & Clark College researching the best methods for teching parallel computing.
- Published at WORLDCOMP world congress in computer science.
- Developed and presented a module for functional parallel programming in Haskell.

Math Tutor, Owner   August 2012 - January 2013
Collegeapptutor.com
Website for the math tutoring business I started. I used it to inform people of the service I offered. I enjoyed tutoring, but scheduling became a problem as it started to conflict with school and my other activities.
- Marketing
- Entrepreneurship
- Communication

EXTRA-CURRICULAR ACTIVITIES

Lewis & Clark College Men's Ultimate Frisbee.
Team Member, Pacific Rim Collegiate Cyber Defense Competition 2013.
Team Member, ACM Programming Competition 2013.

Thank You!
